

INTEGRAL COMMODITIES SA

Mineral fertilizer

UREA grade "B"

INTEGRAL COMMODITIES SA

Specification

UREA granule grade "B"

Appearance	White granules
Mass fraction of nitrogen, min %	46.2
Mass fraction of biuret, % no more	1.0
Mass fraction of water, % no more	0.3
Granules 1-4 mm, min (%)	90
Friability	100

PACKAGING, TRANSPORTATION AND STORAGE

Packaging: bulk, big-bags and 50 kg bags.

Transportation is feasible in any type of transports according to applicable cargo transportation rules.

Stored indoors in well-ventilated warehouses to protect it from weather exposure. Urea containers and bags may be stored outdoors. In case of bulk storage, urea must not mix with any other fertilizers.

Guaranteed shelf life is six months from the date of manufacture.

INTEGRAL COMMODITIES SA

Specification

NPK 15-15-15

Appearance	Granular product
Mass fraction of nitrate and ammonium nitrogen, in terms of nitrogen in dry matter,%	15,0±2,0
Mass fraction of total phosphates in terms of P2O5 in dry matter,% C	15,0±2,0
Mass fraction of potassium in terms of K2O in dry matter,%	15,0±2,0
pH of an aqueous solution with a mass fraction of 10%, no less	3,0
Friability,% , not less	100

PACKAGING, TRANSPORTATION AND STORAGE

Shipped in bulk, in bags, containers (FIBC).

Transportation is possible by all means of transport in accordance with the "Rules cargo transportation", valid for this type of transport.

The goods are stored in closed warehouses that protect the product from atmospheric precipitation. The product is stored separately from other products, substances and materials.

INTEGRAL COMMODITIES SA

Specification

AMMOFOS

Appearance	Light gray granules
Mass fraction of assimilable phosphates,%	46
Mass fraction of nitrogen,%	10 ± 1
Mass fraction of water,%, no more	1,0
Static strength of granules, not less than, Mpa	3.0 (30)
Friability,%, not less	100

PACKAGING, TRANSPORTATION AND STORAGE

Shipped in bulk, in bags, containers (FIBC).

Transportation is possible by all means of transport in accordance with the "Rules cargo transportation ", valid for this type of transport

The goods are stored in closed warehouses that protect the product. from atmospheric precipitation. The product is stored separately from other products, substances and materials.

INTEGRAL COMMODITIES SA

Specification

NITROGEN-PHOSPHORIC FERTILIZER (NPF)

Appearance	granular product without strangers mechanical impurities
Mass fraction of the sum of ammonia band nitrate nitrogen, %	29 - 32
Массовая доля общих фосфатов, %, не менее	4
pH of 10% aqueous solution, not less than	4
Mass fraction of calcium and magnesium nitrates in terms of on CaO,%	0,2 - 0,5
Friability,% , not less	100

PACKAGING, TRANSPORTATION AND STORAGE

Shipped in bulk, in bags, containers (FIBC).

Transportation is possible by all means of transport in accordance with the "Rules cargo transportation ", valid for this type of transport

The goods are stored in closed warehouses that protect the product. from atmospheric precipitation. The product is stored separately from other products, substances and materials.

Specification

POTASSIUM CHLORIDE

Appearance	Small crystals of various shades of red-brown
Mass fraction of potassium in terms of K ₂ O,%, not less	60
Mass fraction of water,%, no more	1,0
Granulometric composition (mass fraction fractions),%	not standardized
Dynamic strength (mass fraction non-destroyed granules),%, not less than	not standardized
Friability,%, not less	100

PACKAGING, TRANSPORTATION AND STORAGE

Shipped in bulk, in bags, containers (FIBC).

Transportation is possible by all means of transport in accordance with the "Rules cargo transportation", valid for this type of transport

The goods are stored in closed warehouses that protect the product from atmospheric precipitation. The product is stored separately from other products, substances and materials.

Specification

AMMONIUM NITRATE

Appearance	White granules colors
The total mass fraction of nitrate and ammonium nitrogen in terms of nitrogen in dry matter,%, not less than	34.4
pH of 10% aqueous solution, not less than	5,0
Mass fraction of water,%, no more	0.3
Static strength of granules, N / granule (kg / granule), not less with calcium and magnesium nitrates	8 (0,8)
Friability,%, not less	100
